Overview

- **Chain of Command**
- **Birth of CAOC-X**
- **AOC Weapon System**
- **Concept of Transformation**
- **Definition/Mission Statement**
- **Mission Areas**
- **Objectives**
- **Desired End state**

U.S. AIR FORCE

AFTC Chain of Command

Integrity - Service - Excellence

U.S. AIR FORCE

AOC as a Weapon System

- **CSAF declares AOC a Weapon System in Sep 00**
 - **AN/USQ-163 : the “Falconer”**
- **AOCs exist and they work ... Why change?**
 - **Inefficient**
 - **Resource intensive**
 - **Little or no formal training**
 - **No centralized sustainment**
 - **No standardization of equipment or TTPs**

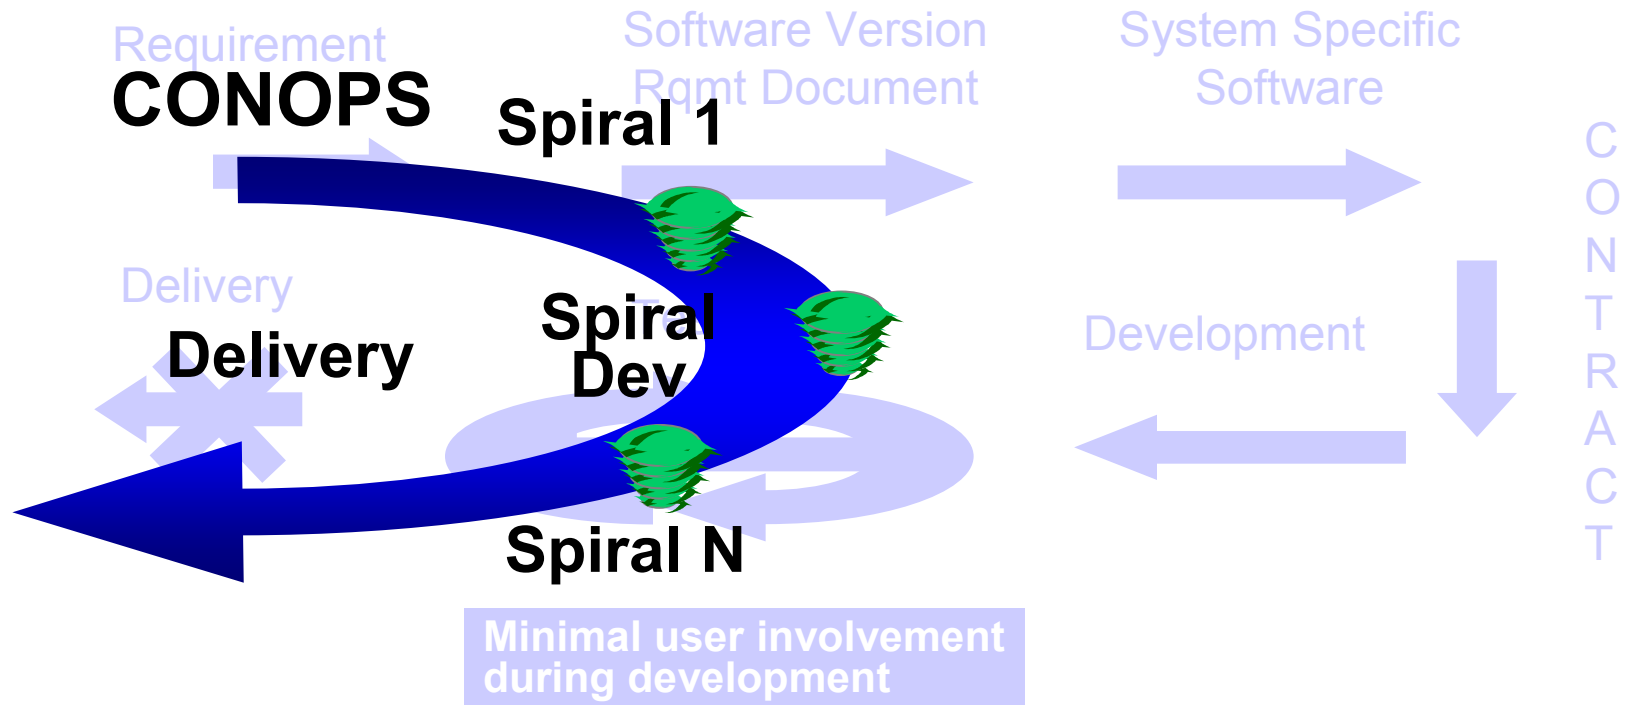

“AOC Weapon System means that we will treat it as a weapon system for ops, sustainment, formal training, crew coordination, standards, checklists ... Not that we will acquire it as we would an F22”

-- Gen Jumper

U.S. AIR FORCE

Spiral Development Cycle

Goal: Continuous technical refresh & evolution

U.S. AIR FORCE

Birth of CAOC-X

CSAF Decision

Spiral Development

**A place and process to rapidly
develop & integrate the AOC Weapon System**

**“Nothing gets fielded to an AOC without
going through CAOC-X first”**

Integrity - Service - Excellence

U.S. AIR FORCE

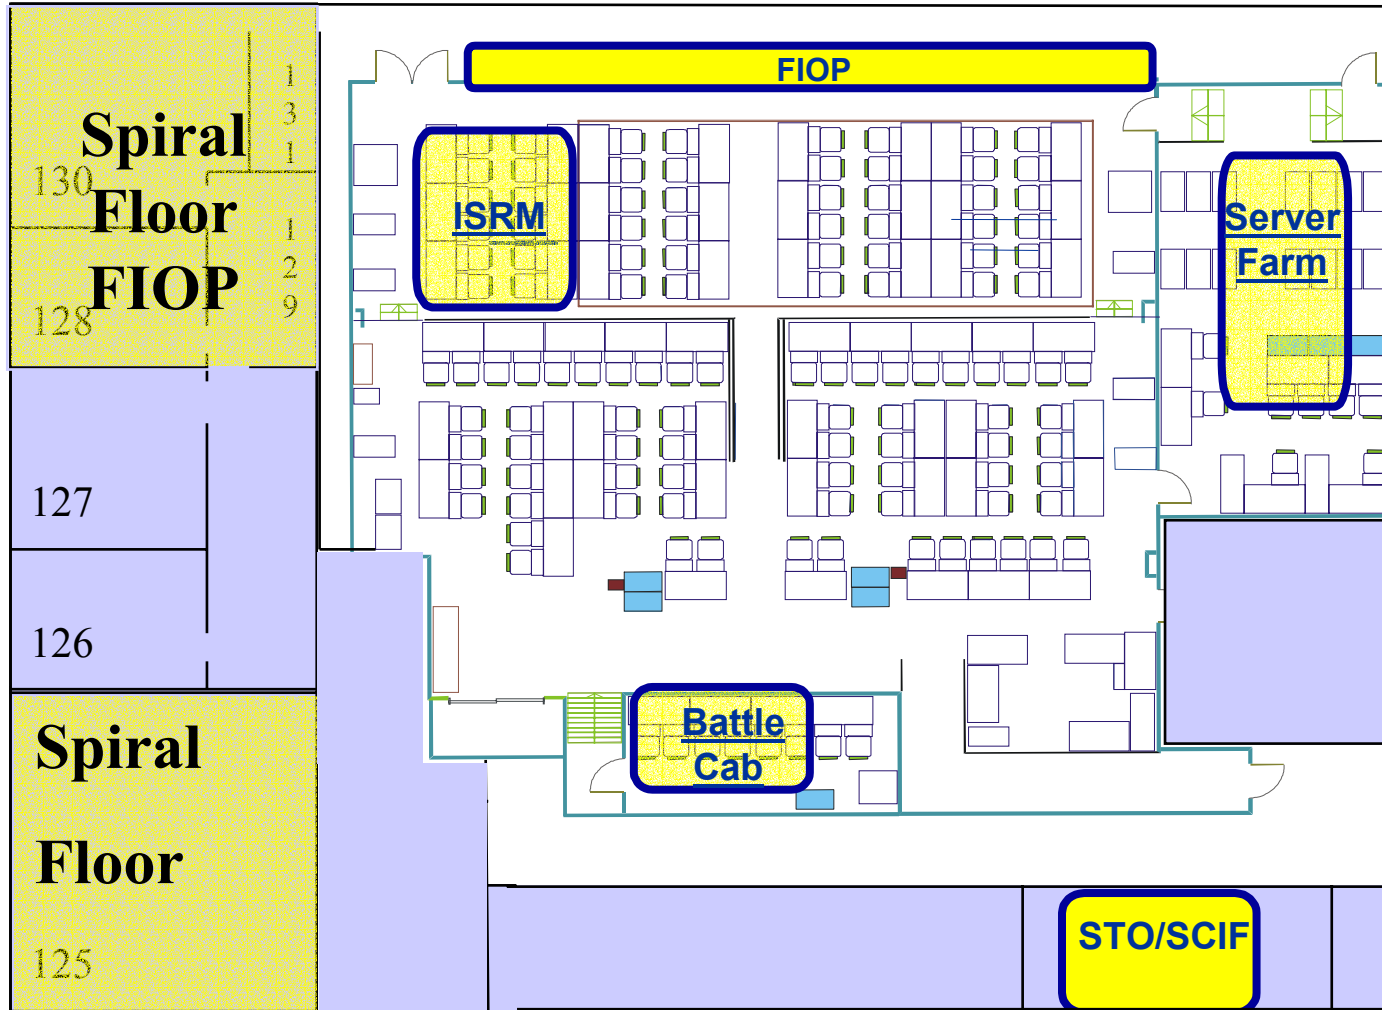

Program Background/Status

- **Sep 00:** **CSAF Declares AOC a Weapon System**
- **Oct 00:** **CAOC-X Ribbon Cutting & Standup**
- **Aug 01:** **PSAB AOC WS Block 10 delivered**
- **Sep 01:** **ACC/CAT stands up in CAOC-X facility**
- **May 02:** **ACC/CAT move out**
- **Jul 02:** **JROC validates AOC ORD**
- **Sep 02:** **AFTC stand-up**
- **Now** **Al-Udeid stand up**

AOC Facilities

Falconer AOCs

- 9th AF deployed(PSAB)
 - Alt AOC (Al-Udeid)
- 7th AF (Osan)
- 12th AF (DM)
- 32nd AOG (Ramstein)
- 502nd AOG (Hickam)

MANFOR AOC Units

- 152 AOG (Syracuse)
- 157 ACS (St Louis)
- 701 ACS (March)
- 112 ACS (PA)
- *710th (Share with Langley)
- *8th AF (Share with CAOC-T)

Training & Innovation Ctrs

- AFTC (Langley)
- CAOC-N (Nellis)
- CAOC-T (Barksdale)
- C2TIG/FTU (Hurlburt)
- 9th AF (Shaw)

Functional AOCs

- CMOC (NORAD)
- 11th AF (Elmendorf)
- 1st AF (Tyndall)
- 14th AF (Vandenburg)
- TACC (Scott)

U.S. AIR FORCE

Current Strategy

**TBMCS 1.1
USMTF 00**

**TBMCS 1.2
Web-enabled**

Evolution

Block 10

Block 10.1

Revolution

Integrity - Service - Excellence

U.S. AIR FORCE

AOC Capabilities

Block 10

- No correlated air, ground, and space picture
- Some formal training infrastructure-IQT
- Limited TCT (manual)
- Initial ISR Management
- **Limited Coalition Interoperability**
- Not designed for rapid deployability
- Stovepipe architecture - Many systems pieced together

FY04-FY05

Block 10+

- Limited Correlation of air, ground, and space picture
- Partial formal training in place – Formal IQT (FTU)
- TCT capability in place
- ISR Management capability
- **Limited Coalition Interop: some safeguards**
- Not designed for rapid deployability
- Stovepipe Architecture – Additional systems pieced together, but better interop.

FY04-FY06

Block 30- Advanced Technology

- Fusion of air, ground, and space into common picture
- Formal training process systemized
- Enhanced TCT operations
- Full spectrum ISR Mgt
- **Multi-level security safeguards with Coalition operations**
- Reach-back/AT- less people and equipment to deploy
- Information services based architecture leveraging commercial products

FY07-FY09

Block 10 Revision 3

U.S. AIR FORCE

Mission Applications

1. Collection Management Mission Application
2. Command and Control Information Processing System
3. Command and Control Personal Computer
4. Generic Area Limitation Environment Lite
5. Global Command and Control System
6. Global Decision Support System
7. Global Transportation Network
8. Imagery Product Library
9. Information Warfare Planning Capability
10. Interim Targeting Solution
11. Joint Deployable Intelligence Support System
12. Operational Model Exploiting GPS Accuracy
13. PC Integrated Intelligence and Imagery
14. Planning and Decision Aid System
15. Personnel Recovery Mission Software
16. RAINDROP (Legacy)
17. Requirement Management System
18. Space Battle Management Core System
19. Theater Battle Management Core System
20. Theater Weather Server
21. Worldwide Origin Threat System
22. Weapons System Video

Services

23. Air Operations Net
24. Broadsword

25. Defense Message System
26. Global Broadcast System
27. INTELINK and INTELINK-S
28. Joint Collaboration Environment
29. NSA Threat Warning Net
30. Predator Video
31. Purple Net
32. Tactical Data Information Exchange System-Broadcast
33. Tactical Intelligence Broadcast System
34. Tactical Related Applications

Infrastructure

35. Radiant Mercury
36. Imagery Support Server Environment Guard
37. Community of Interest Network
38. Joint Worldwide Intelligence Communications System
39. Sensitive but Unclassified Internet Protocol Network
40. Secure Internet Protocol Router Network
41. Tactical Data Links in formats A, B, J, and S
42. Air Defense System Integrator – TSQ-214
43. Deployable Transit-case System
44. Joint Tactical Air Ground System
45. Precision Lightweight Global Position Receiver
46. Tactical Data Processing Suite
47. Tactical Data Terminal
48. Tactical Receive Suite

U.S. AIR FORCE

New Way of Doing Business

- **CAOC-X grows into AF C2 Transformation Center**
- **Build on success of CAOC-X**
- **Expand scope beyond AOCs to all C2 nodes**
- **Focus on capabilities – not just technology**

Integrity - Service - Excellence

U.S. AIR FORCE

Air Force Transformation

“A process by which the military achieves and maintains asymmetric advantage through **changes in operational concepts, organizational structure, and/or technologies** that significantly improve warfighting capabilities or ability to meet the demands of a changing security environment”

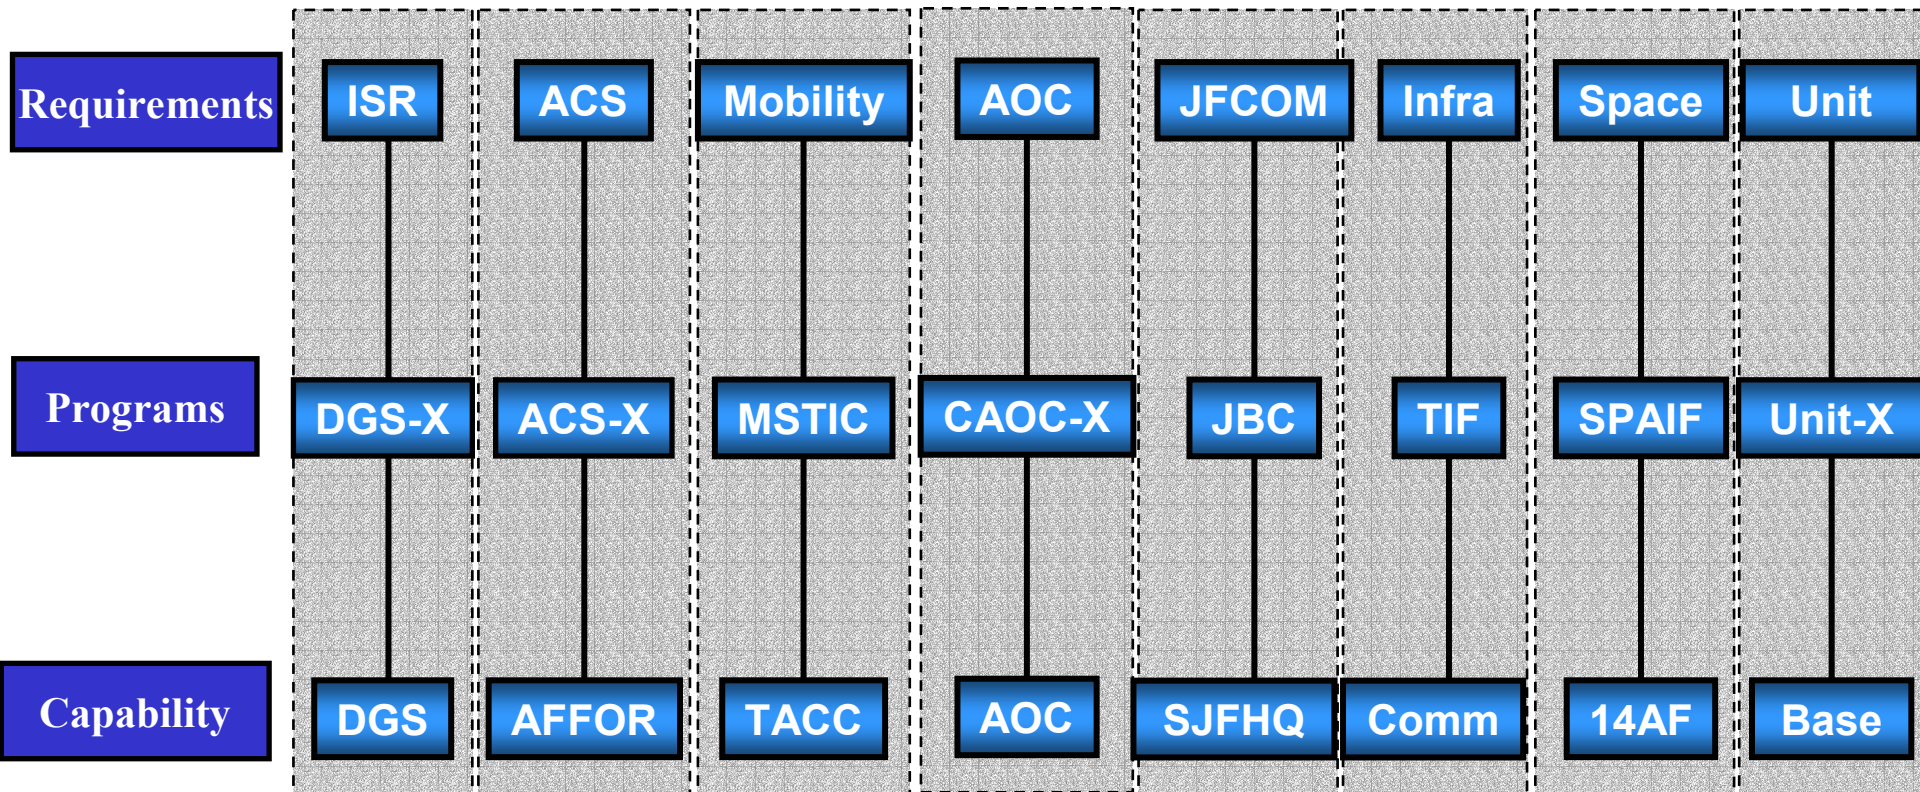

“Create an acquisition policy environment that fosters efficiency, flexibility, creativity, and innovation”

Deputy Defense Secretary Paul Wolfowitz on interim acquisition guidance

U.S. AIR FORCE

Before: Stovepipe Development

Integrity - Service - Excellence

AF C2 Transformation Center Mission Statement

Operators leading teams of users, developers, acquirers and testers to transform concepts, organizations and technologies into a common infrastructure, support tools and decision making capabilities to command and control the full spectrum of air and space power at all echelons – service, joint, and coalition

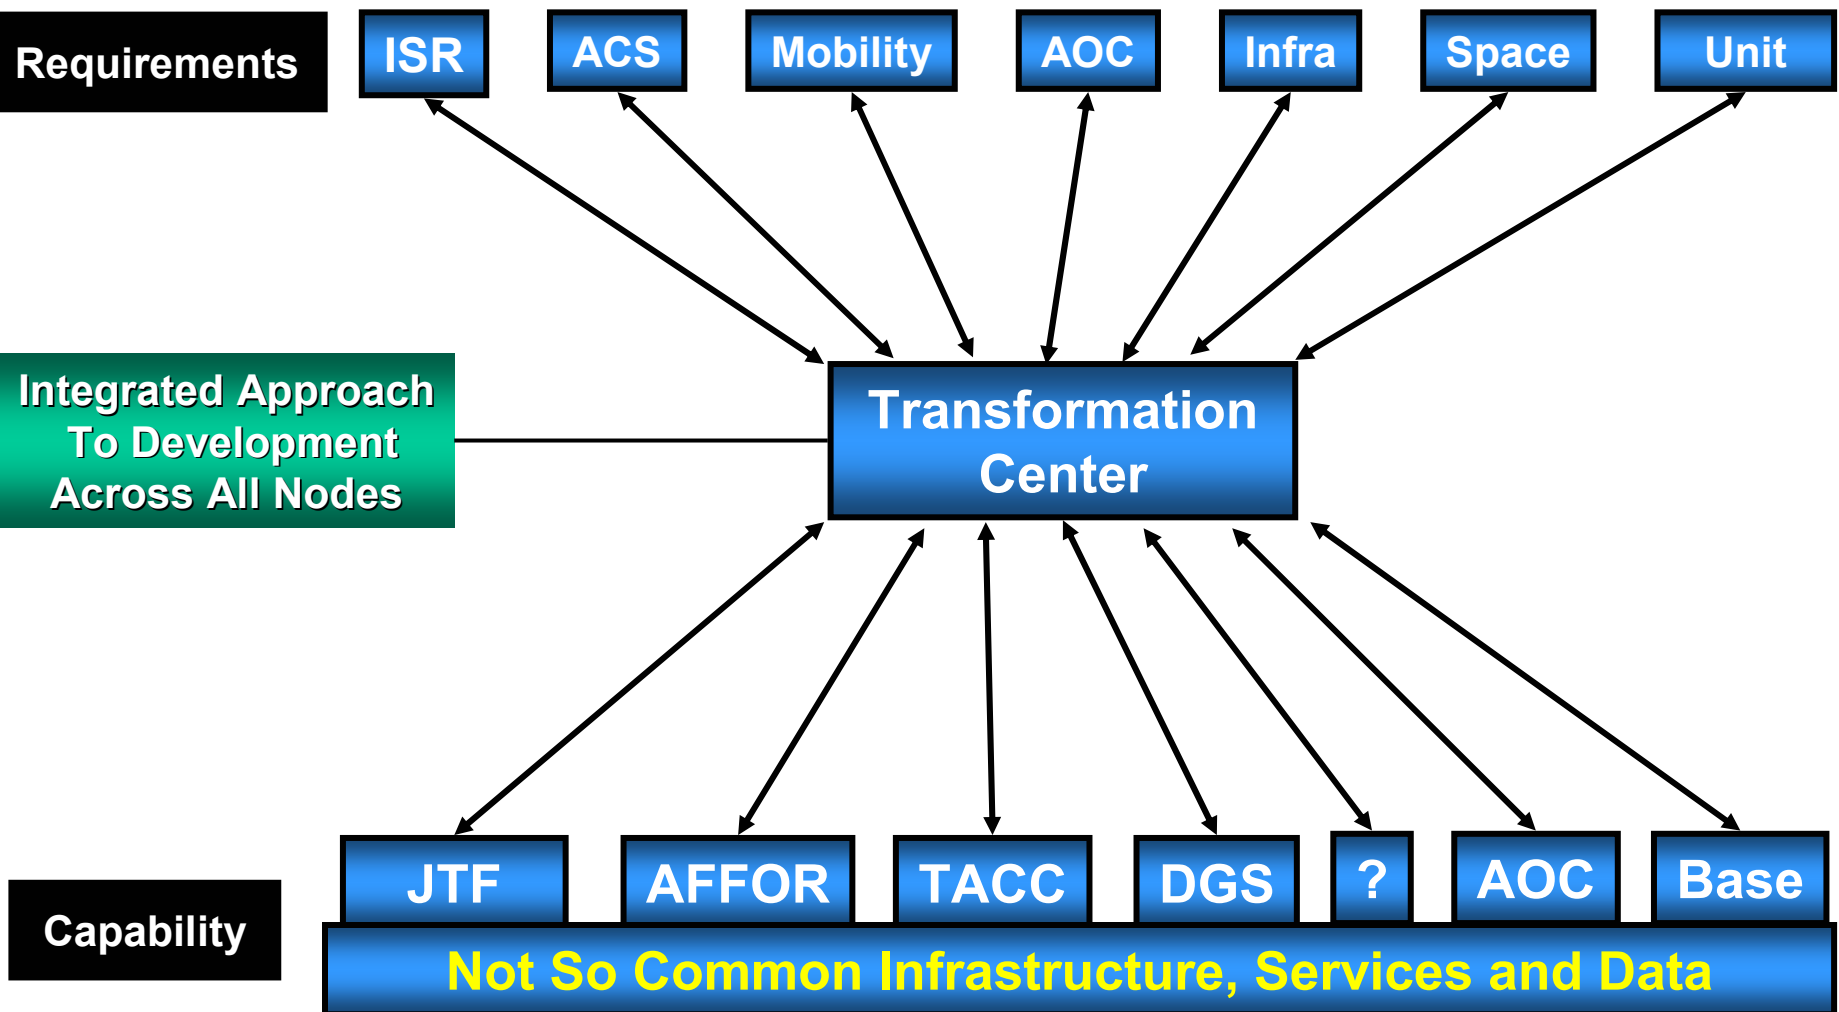

Place, process, and environment to integrate capability

U.S. AIR FORCE

Initial Transformation Path

- **Today's AOCs & DGS**
 - Focus is on the nodes
 - Processes are complementary but separate
- **CAOC-Next, DGS-Next (and Deployable Joint C2)**
 - Focus on the information & process
 - Process is continuous & predictive for dynamic execution
- **Advanced Technology AOC**
 - Integrated, interoperable information & infostructure

AT AOC Is An Information Fusion Center

Integrity - Service - Excellence

U.S. AIR FORCE

Transformation Objectives

- Identify and **fill gaps** in capabilities
- Identify and **eliminate duplicate** capabilities
- Converge to **standardized common infrastructure**
- Take advantage of advances in **technology** and **concepts of operation**
- Build and maintain our **asymmetrical advantages** over our adversaries
- Significantly **improve our warfighting capabilities** to meet the demands of emerging security threats
- Fully **integrate BMC4I** into C2 Constellation

Today's Technology Today

Integrity - Service - Excellence

Transformation Center Desired End State

- **Eliminate stove pipes and lengthy fielding efforts**
 - **One team**
 - **One process**
 - **One set of priorities**
 - **One schedule**
 - **One Air Force voice**
- **Integrated Capability**

Unique Environment Enables Rapid Prototyping/Development/Fielding

U.S. AIR FORCE

Questions?

Integrity - Service - Excellence

U.S. AIR FORCE

Knowledge Wall Demo

- Demo is a Vision not an application
- Uses a Time Sensitive Targeting scenario based on Pacifica
- Country A has seized mineral deposits in country B
- B has asked for assistance
- US has responded
- Demo shows how “Science of control enables the art of command”

Headquarters U. S. Air Force

U.S. AIR FORCE

Family of Interoperable Operational Pictures

- **JROC directed Multi-Service Project**
 - **AF is Lead with AFC2ISRC/CC as Executive Agent**
 - **Goal is to** *"Provide an all-source picture of the battlespace containing actionable, decision-quality information to the warfighter through a fusion of existing databases..."*
 - **Priority Task 1.1 for FY 02-03 (AF responsibility)**
 - **Web-Enabled Execution management**
 - **Battlespace Awareness**
 - **Horizontal/Vertical Integration**
 - **Continuous assessment**
- } **From AOC
CONOPS**

U.S. AIR FORCE

Overarching Requirements

- **Battlespace Awareness** – provides an accurate picture of friendly and enemy operations within the area of interest – view and monitor potential targets giving the commander the ability to redirect assets

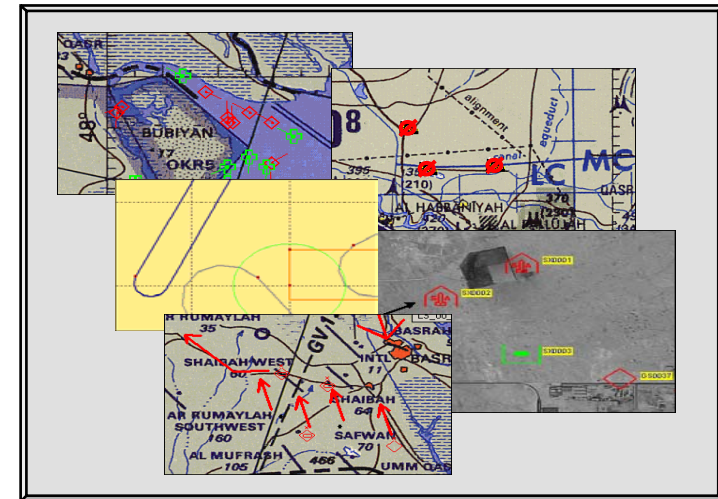

- **Horizontal/Vertical integration** –effective Horizontal/Vertical integration between Components and Higher Headquarters during execution improves ability to Find, Fix, Target, Track, Engage, Assess (F2T2EA) at the right time and place ...”

- **Continuous Assessment** – during execution each functional area continuously monitors changes to the plan. This information provides a comprehensive picture of current and projected capability, and is tailored to the needs of the the decision maker

Automated Deep Operations Coordination System (ADOCS)

- Army ACTD in use in Korean theatre
- Being adapted as FIOP spiral 1 increment 1
- Rapidly fielded to 1AF post 9/11
- Operational assessment at UFL Aug 02
- Installation at PSAB TBD
- Adding additional interfaces and products as a result of MC02

Time Sensitive Targets

Target No.	Description	Mission No.	Aircraft	Call Sign	NLT	TDO	AIR	DCO	CM	CA	PSD
AB0010	TROOPS IN OPEN										
AB0011	ACFT ON RUNWAY	4510B	2/F4E	LIONS11							
AB0012	SCUD TEL				47:00	OLD					
AB0013	SOF IN OPEN	4552A	2/F5E	COLTS47							

U.S. AIR FORCE

Joint Execution Tool (JET)

- **FIOP spiral 1 increment 2**
 - Mimic ADOCS functionality
 - COE compliance
 - Web-enabled capability
- **Started development in Jul 02**
- **Working demo completed Sep 02**
- **Contract award early FY03**
- **Capability to be tested and delivered end FY04**

The screenshot shows a software window titled 'TST' with a subtitle 'FIOP Time Sensitive Targets List'. The main heading is 'Coordination: Time Sensitive Targets'. Below this is a table with columns: Desc., Mission No., ACFT, Call Sign, NLT, TDO, AIR, DCO, CM, and CA. The table contains four rows of target data, each with colored status indicators in the TDO, AIR, DCO, CM, and CA columns.

Desc.	Mission No.	ACFT	Call Sign	NLT	TDO	AIR	DCO	CM	CA
APC ASSEMBLY AREA					Green	Yellow	Yellow	Green	White
SCUD IN TRANSIT					Green	Green	Green	Red	White
TROOPS IN OPEN					Green	Green	Green	Green	Green
MOBILE AAA SITE					Red	White	White	White	White

Integrity - Service - Excellence

U.S. AIR FORCE

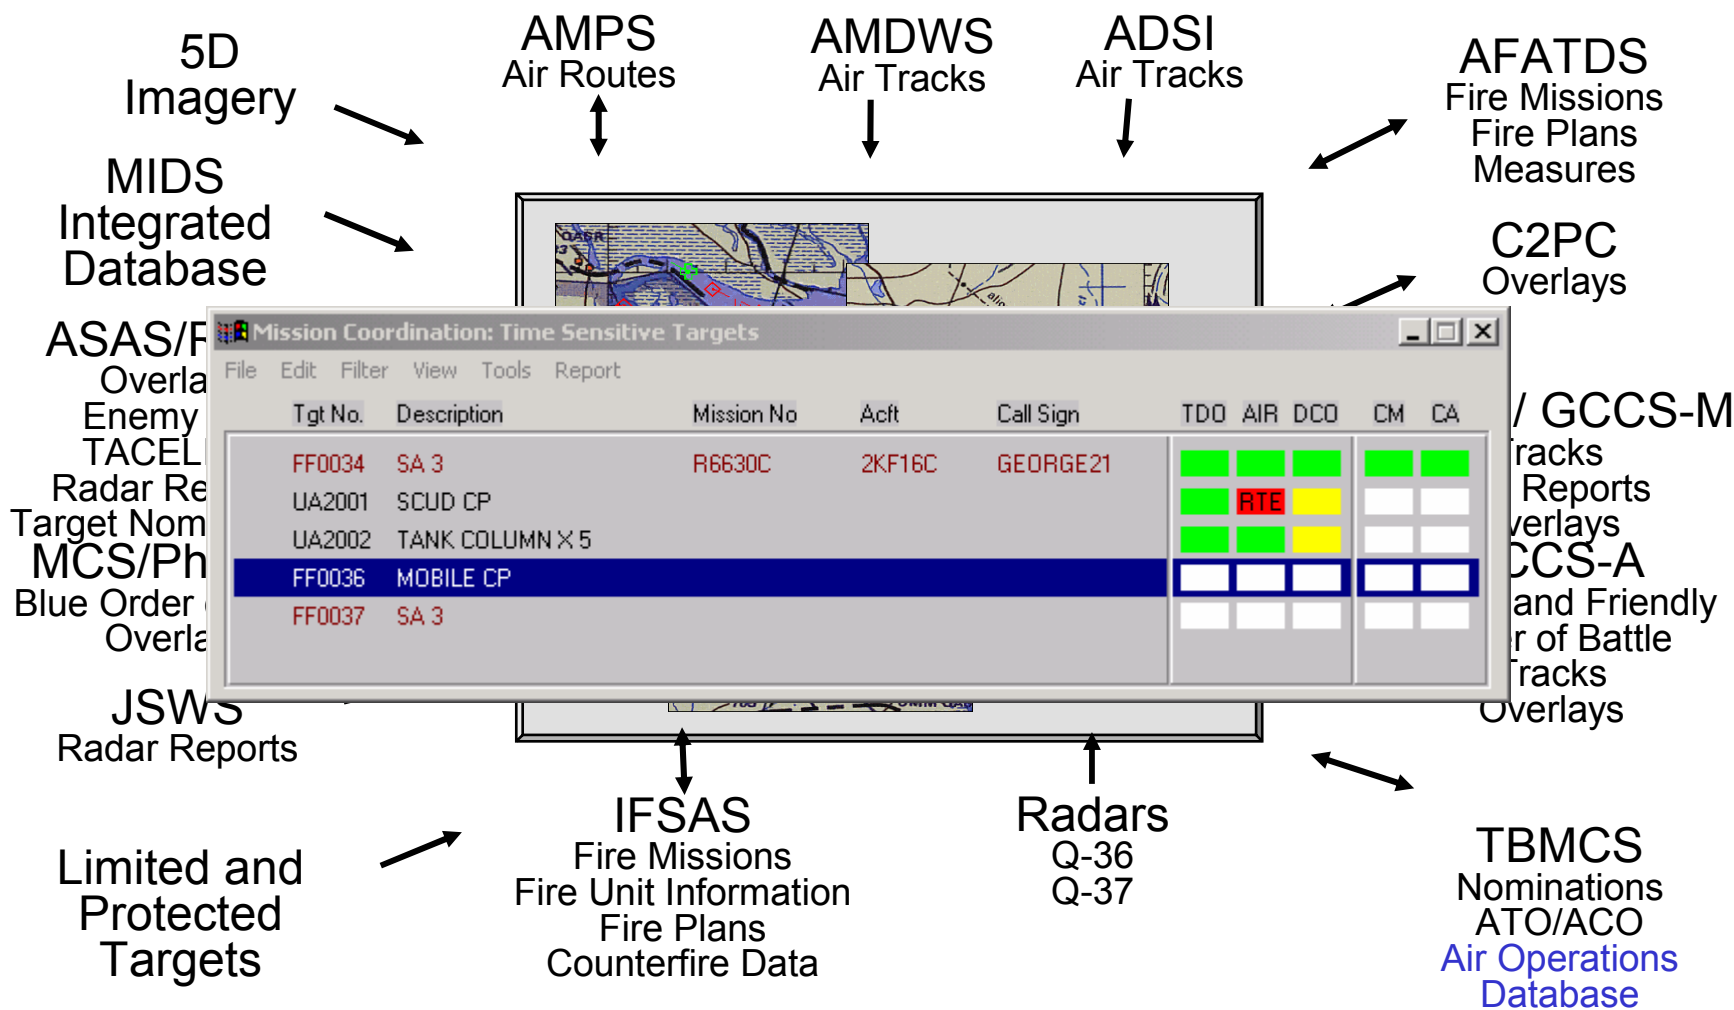

ADOCS functionality defined

- **Windows-based look and feel - simple user interface**
- **Rapid map movement and interaction**
- **Ability to coordinate horizontally and vertically**
- **User selectable visualization of multiple data sources**
- **Continuously updated information on screen**
- **Drill down to get amplifying (detail) information**
- **User definable filters on all data**
- **Pass data across nodes**
